

TARGET USE

Ideal boot for arborists and forestry activities, that guarantees premium cut-protection thanks to the level 2 certification. In addition, its lightness and flexibility make it particularly suitable for tree-climbing activities.

SPECIFIC PLUS

INSTANT FIT. Precise fit and long-lasting comfort from the first time, even after wearing it all day long.
PROTECTION. Premium protection in a certified class 2 chainsaw boot.
LIGHTNESS. 930 gr. of lightness with medium/soft flex, also perfect for tree-climbing activities.
